National Standard Plumbing Code Public Hearing Set for Aug. 11

Ontario, Calif. (May 12, 2022) – The International Association of Plumbing and Mechanical Officials (IAPMO®) encourages all members and industry representatives to review the proposed code changes for the 2024 *National Standard Plumbing Code (NSPC)* and attend the *NSPC* public hearing, Aug. 11, in Atlantic City, New Jersey.

The *NSPC* Committee accepted proposals for changes to the 2024 *NSPC* from July 1, 2021, through April 1, 2022. Changes approved at the August hearing will appear in the 2024 *NSPC*. The *NSPC* Committee reviews the code annually and updates it on a three-year cycle.

The proposed changes to the 2024 *NSPC* will be available to the public for downloading and viewing after June 6 at www.iapmo.org/NSPC. No hard copies of the proposed changes will be available at the public hearing; interested parties are encouraged to download the file.

The public hearing for review of the proposed code changes for the 2024 *NSPC* will take place 8 a.m.-5 p.m. ET, Aug. 11, at the Tropicana Casino and Resort in Atlantic City. Attendees needing hotel accommodations can make reservations by calling (888) 516-2215 and referencing Group Code: ST08NS2. The deadline to receive the *NSPC* negotiated room rate is July 10.

IAPMO urges its members and other interested parties to get involved in the code development process. Designed to ensure the proper installation of plumbing systems, the *NSPC* provides local and state governments, code administrative bodies and the industry with a modern code to protect public health, safety and welfare.

"The *NSPC* is developed by all segments involved in the plumbing-heating-cooling industry: contractors, inspectors, manufacturers, engineers and labor," said *NSPC* Chairman Frank Maddalon. "The *NSPC* has played a vital role as the state code for New Jersey and the testing code authority for master plumbers and inspectors since 1977."

For more information, please contact the IAPMO *NSPC* staff at nspc@iapmo.org.
