IAPMO Seeks Technical Committee Members

Ontario, Calif. (Oct. 29, 2018) — The International Association of Plumbing and Mechanical Officials (IAPMO®) is seeking volunteers to participate on two technical committees working toward the development of the 2021 editions of the *Uniform Swimming Pool, Spa, and Hot Tub Code (USPSHTC)* and *Uniform Solar, Hydronics & Geothermal Code (USHGC)*. **The deadline to submit an application is Feb. 1, 2019.**

The *USPSHTC* and *USHGC* technical committees each seek members in the following categories: manufacturer, user, installer/maintainer, labor, research/standards/testing laboratory, enforcing authority, consumer, and special expert. These committees are assembled in accordance with the Regulations Governing Consensus Development of the *USPSHTC* and *USHGC* and the Guide for the Conduct of Participants in the IAPMO codes and standards development process. These documents may be viewed at the following URL:

<http://codes.iapmo.org/docs/ConsensusCodeDevelopmentCycle.pdf>

Within them, prospective technical committee participants can find information on the scope and general guidelines for conduct of these committees.

IAPMO first developed the *USPSHTC* in March 1967 and the *USEHC* in September 1976. The provisions of these codes apply to the erection, installation, alteration, repair, relocation, replacement, addition to or maintenance of any solar energy, hydronic heating/cooling, swimming pool, spa or hot tub system. These codes are produced using a consensus process accredited by ANSI and will be self-designated as American National Standards upon completion, as IAPMO is an ANSI Audited Designator.

Anyone interested in serving on one of these committees can complete the application online at the Code Development webpage: http://forms.iapmo.org/iapmo/committee/app_tech_committee.aspx

For specific information about the *Uniform Swimming Pool, Spa, and Hot Tub Code* Technical Committee, please contact Enrique Gonzalez at (909) 230-5535 or e-mail your question to enrique.gonzalez@iapmo.org. For the *Uniform Solar, Hydronics & Geothermal Code* Technical Committee, contact Zalmie Hussein at (909) 218-8122 or e-mail your question to zalmie.hussein@iapmo.org.
