FOOD EQUIPMENT

TESTING AND CERTIFICATION

Put Our Experience To Work For You

IAPMO EGS understands that time to market is crucial to a product's success. By teaming with us, manufacturers, distributors and importers of electrical products will experience our customer-focused service and our pledge to get your product through the testing and certification stage as quickly as possible!

We are a Nationally Recognized Testing Laboratory (NRTL), recognized by OSHA and accredited as a certification body in accordance with ISO/IEC 17065 by the Standards Council of Canada (SCC):

- Coffee makers
- Steam cookers
- Vegetable cutters
- Conductive cookers
- Meat slicers
- Food mixers
- Food warmers
- Popcorn machines
- Nonrefrigerated ice cube dispensers
- Fryers
- Ranges
- Noodle maker
- Griddles
- Utensil warmers
- Soup warmer
- Steam kettles
- Coffee grinders
- Electric grill

EXPERIENCE

Our engineers and technicians are well versed and experienced in applicable test standards. In fact, we are part of the technical committee for many of the noted test standards. We will also commit to meeting your market target for your products.

SPEED

IAPMO EGS streamlines your testing and certification process in the United States and Canada. This significantly reduces your cost and time to market.

VALUE

Our experienced staff listens to your needs and helps you create the simplest, most efficient testing/certification program to minimize your costs. We put our experience to work for you.

NEED ENERGY STAR® CERTIFICATION?

IAPMO EGS can help with your ENERGY STAR® needs for Commercial Water Heaters, Fryers, Ovens, Griddles, Refrigerators, Freezers, Pool Pumps, Water Coolers and Residential Dishwasher products.
