### **Emerging Water Technology Symposium Confirms Rescheduled Dates**

**San Antonio (March 31, 2020)** — The co-conveners of the 2020 Emerging Water Technology Symposium (EWTS), which was scheduled for May 12-13 in San Antonio, have confirmed that the rescheduled event will take place on May 11-12, 2021, at the Westin Riverwalk Hotel in San Antonio.

“We’re pleased to be able to confirm the rescheduled dates,” said IAPMO’s Peter DeMarco, the event’s lead technical organizer. “We’d like to thank the Westin Riverwalk Hotel in San Antonio for their flexibility in working with the organizers of the symposium during these difficult times. We look forward to showcasing our program and lineup of outstanding presentations at the 2021 EWTS.”

Co-convened biennially by the American Society of Plumbing Engineers (ASPE), the Alliance for Water Efficiency (AWE), the International Association of Plumbing and Mechanical Officials (IAPMO), and Plumbing Manufacturers International (PMI), in cooperation with the World Plumbing Council (WPC), EWTS is designed to provide a portal for the host organizations’ partners in the manufacturing, engineering and trade industries to display and demonstrate their innovative solutions to legislative and regulatory developments that often alter industry landscapes.
