XI. Conflict of Interest

IAPMO/ASSE is responsible for ensuring that all committee members and IAPMO staff involved in standards development are free from conflicts of interest when carrying out their roles and responsibilities on Standards Committees or subcommittees.

To support transparency and allow others to accurately evaluate the perspectives and information contributed during the standards development process, participants should clearly disclose any potential conflict of interests such as any business, commercial, organizational, or other affiliations that may influence their interests or viewpoints.

Committee members are required to inform IAPMO/ASSE staff of any known or potential conflicts of interest, or any circumstances that could affect their impartiality on a particular matter.

If a committee member is uncertain whether an actual or potential conflict of interest exists, the individual should seek guidance from IAPMO/ASSE staff to determine whether they should continue participating in that role.

XII. Meeting Policy

By their nature, trade associations such as IAPMO/ASSE/ARCSA bring together competitors and thus are under higher scrutiny for anticompetitive issues. Antitrust laws prohibit agreements or concerted efforts that unreasonably interfere with free and open competition. Penalties for violating antitrust laws can be severe. IAPMO/ASSE/ARCSA comply with antitrust laws and expect all participants in its meetings to do the same.

In this meeting, and outside the meeting as well, discussions of agreements that could restrain competition are prohibited. You may not exchange information concerning individual prices, rates, coverages, market practices, claims settlement practices, or any other competitive aspect of an individual company's operation. Each participant is obligated to speak up immediately for the purpose of preventing any discussion falling outside these bounds.

This meeting is governed by IAPMO/ASSE's Code of Conduct. Disruptive behavior, including constant interruptions or inappropriate comments, may lead to your mic being muted or immediate removal from the meeting. Please be respectful and contribute constructively. The Code of Conduct Policy can be found on the ASSE and IAPMO websites under Downloads.

Your continued attendance at and participation in this meeting constitutes your acknowledgment and acceptance of this Meeting Policy.
