- VII. Scope of the Task Group.** Taylor Duran reviewed the Task Group scope as follows:
The scope of the Log Reduction Targets Task Group is to review proposals related to log reduction targets (LRTs) for assessing water quality and the effectiveness of treatment processes in onsite systems, as published in the 2025 WE♣Stand Report on Proposals (ROP), and develop public comments for WE♣Stand Technical Committee consideration towards the development of the 2027 edition of the WE♣Stand.

VIII. Goals for the meeting.

A. Continue reviewing items from the 2025 WE♣Stand Report on Proposals. (See Attachment 1)

The Task Group continued with their review of ROP items in Attachment 1 and generated recommendations in the form of public comments.

B. Review of completed action item. (See Attachment 2)

The Task Group was unable to review Attachment 2 within the allotted timeframe.

C. Assign new action items.

Taylor Duran is to compile all approved recommendations, gather UPC requirements for piping within the same trench, and provide a cleaned up version of the updates relating to rainwater catchment systems.

D. Address additional questions and concerns. **None.**
